

North Star Sail Club 2011 Club Championship Series

The Club Championship Series is open to NSSC boats and consists of races of various distances spread across the sailing season. Take your shot at being named Club Champion!

Sun, Jun 12 – Boston-Yachtsman Regatta

This year, the Boston-Yachtsman Race is being expanded to a multi-race regatta with spinnaker and JAM classes and an emphasis on competition. The boat's overall division finishing position in the regatta will be used for series scoring. This regatta will be the short-distance races in the series.

Sun, Aug 28 – Past Commodores' Race

A North Star classic! This year, we've moved this distance race to the end of August. Good chance that there will be some racing in the dark, which always mixes things up! The course is the same, so this race will be the long-distance race in the series.

Sun, Oct 2 – Howard Boston Memorial Race

Last chance to take your shot! The race format is for a medium-distance race, with many mark roundings.

Scoring

The NSSC Club Championship Series will be scored using the Cox-Sprague Scoring System. This will account for races that may have different classes available for competition, competing boats that may choose to race in different classes from event to event, and a varying number of boats that may start from race to race. All races must be sailed to qualify for series awards. For the Boston-Yachtsman Regatta, the boat's overall division finishing position will be used for series scoring.

Awards

North Star Sail Club will use the results of the series races to choose its Club Champion. The skippers of the 1st, 2nd, and 3rd place boats will be recognized at the ABYRA Haul Out Party with the 1st place skipper receiving the Club Championship Trophy.
